- Cleaning and Care Instructions:
 - We recommend you wipe your faucets dry after every use. This will prevent accumulation of mineral deposits left when water evaporates. Use a soft cloth for wiping all surfaces.
 - Avoid harsh and abrasive cleaners on all faucet surfaces. Use only a soft, damp cloth with mild liquid soap to clean the finished surfaces of all faucets, including coated polished brass, gold, brushed nickel, etc.
 - Painted and plated surfaces alike, should be coated regularly with a thin protective film. Non-abrasive liquid car wax is recommended.
